Holden Research and Consulting

**STRAWBERRY TRIAL 2014**  
CALIFORNIA

**STRAWBERRY TRIAL 2015**  
CALIFORNIA

## iNvigorate is a soil-applied liquid microbial

- Frees up nutrients bound to soil particles and crop residue
- Stimulates root growth for enhanced nutrient uptake
- Fosters the growth of a healthy soil microbiome

## B Sure is a liquid foliar biostimulant

- Improves natural plant processes that lead to greater productivity
- Supports plant health and vigor during critical stages
- Stimulates root growth
